A CATALOGUE
OF THE
FIRST PORTION
OF THE
UNIQUE COLLECTION OF
BRITISH BIRDS

formed by the late Sir VAUNCEY HARPUR CREWE, Bart.

This vast Collection of Varieties of British Birds, and examples of all the rarer species, has been collected by Sir Harpur Vauncey Crewe and other sportsmen and naturalists throughout Britain, and acquired privately and from the sales of all the most important collections disposed of during the last fifty years.

The many historic rarities include Black Stork, Flamingo, Glossy Ibis, Andalusian Hemipode, and others. Also such varieties as Wilson's Phalarope, American Purple Martin, and all the rarer species of all families.

Unique and remarkable varieties of nearly all the British species, Albinos, Melanic, Pied, and all other phases of variation are represented in great numbers, also a large number of Hybrids, chiefly of Game Birds.

The Collection contains varieties of
BRITISH MAMMALS,
comprising many Albinos, Pied and other forms.

Which will be Sold at
